

Thornborough Infant School Report for the Open Meeting of the Parish 2017

The School Fete was very successful with lots of different village organisations having stalls to raise money for their own causes. It was lovely to see so many villagers on Saturday.

The children have been taking part in a national project called *Go-Givers* where they have to identify a cause, research it and do something to make a difference. It can't be the school. They decided to do something about endangered animals and are trying to buy an acre of rainforest. At the moment they have raised money for half an acre. The school is a happy place and as a result our children are very successful.

We have a lot of support in the school from volunteers in the village. This has been fantastic. Having people in school to hear readers and to support children in class makes such a difference. We really appreciate all our volunteers.

We are still trying to get more pupils in the school to keep it viable. Our budget like all school budgets has been cut in real terms and our resources such as children's books, paints and pencils are all paid for by fundraising.
